

# THE PRODUCT COMPENDIUM

# Canopy

## UNDER COVER

A complement to Chemistry desking, Canopy's fabric covered panels with optional tech knit pockets can be used to pin and store inspirational materials. A magnetic dry wipe board both inside and outside makes clever use of the space.

Chemistry Canopy encourages and supports both times of concentration and of private conversation. Great consideration was given to the acoustic properties of Canopy, offered in a selection of acoustically tested fabrics to assist with the levels of reverberation. Ensuring noise levels are minimised for both an individual sitting alone, or for a colleague of co-worker to work alongside during ad-hoc meetings, without distraction to others.

# Crossover

Crossover is based around a pair of horizontal beams which provide a robust structure and a continuous fixing method for all furniture elements. Legs, screens, wire management, work surfaces and accessories can be attached at any point along the beams regardless of desk module.

## EXAMPLE CONFIGURATION

Private offices can also be flexible spaces, the addition of a desk return allows quick meetings to take place if required. In the absence of the occupant another manager may make use of the space.

## EXAMPLE CONFIGURATION

A six person cluster with some personal storage is one of the most typical set ups found in open plan offices. With only a small amount of screening there is not too much division between colleagues, encouraging some social interaction.

# Core

Core is a versatile desk system with a fresh, clean aesthetic based around a horizontal beam construction, which provides structure and rigidity and allows for the fixing of the various system elements. The flexibility designed into the system allows Core to provide a comprehensive range of different applications.

## EXAMPLE CONFIGURATION

A four person cluster with some personal storage is often found in open plan working environments. Screening helps to manage acoustics without disrupting communication and collaboration.

## EXAMPLE CONFIGURATION

This two person bank of desks is an ideal supervisory workspace for an open plan office. Set away from the main clusters with personal storage for filing of confidential information and screens for focus.

# Jigsaw

Jigsaw is designed to provide a truly flexible cost effective solution for any office application or task. Key to the system is the rigid beam which allows almost limitless shared configurations and extremely simple installation.

## EXAMPLE CONFIGURATION

This two person bank of desks is an ideal supervisory workspace for an open plan office. Set away from the main clusters with personal storage for filing of confidential information and screens for focus.

## EXAMPLE CONFIGURATION

This three person configuration provides an alternative and interesting layout for employees based at a desk for long periods of time. The use of screens and personal storage creates individual 'me' space.

# Storage

Storage has become more than just a place to store paperwork or keep personal effects, it has become a method of creating division within a space. Developed in a different way to the traditional filing systems, our storage collection responds to the changing requirements of storage systems and privacy needs.

## EXAMPLE CONFIGURATION

The back of storage in communal areas should not be overlooked, it divides the space well and by adding fabric or whiteboard panels it can be used be in meetings or for pinning ideas up.

## EXAMPLE CONFIGURATION

The printer area is an essential part of the office that can often cause distraction. By creating a central hub it gives a cleaner aesthetic to the office that can also act as an acoustic aid. By adding a shared work table and storage for resources, the area has become more functional.

# Storage

Senator Storage supports a wide range of resources that is complementary to the design of any space. Open shelves, flipper units, pull-out towers and filing cabinets are just a few products in a vast selection of units available that vary in size and function.

## EXAMPLE CONFIGURATION

A storage wall is a good way to partition the space in reception and waiting areas, the display or library area can be used to decorate the space and the shared storage can be easily accessed.

## EXAMPLE CONFIGURATION

In hot desking areas, communal storage can be used as a place to hold personal belongings temporarily as well as resources that are less frequently accessed.

## Storage & Screens

With a variety of sizes, product options and finishes available, Universal Storage is a perfect complement to our full range of workplace solutions. Screens can be freestanding or mounted to workstations to enable personal privacy.

### EXAMPLE CONFIGURATION

Pull out storage is a good way to stow away personal items conveniently as well as for keeping reference material close by and off the desk area. When pulled out this storage can also provide a screening function.

### EXAMPLE CONFIGURATION

Sliding door storage is often used if a business is paper heavy and requires more files than would be possible in a pedestal to be kept close to hand for reference purposes.

# Mote

# Mote

Mote has been designed to provide a holistic solution when designing dynamic environments. Created as a complete lounge seating range, no detail is an afterthought, with every inch having been given careful consideration to eliminate dead space.

## MOTE SHARE

Mote's holistic approach to designing dynamic environments lends itself perfectly to creating a space to share ideas and source new ones. This configuration, along with its acoustic properties offers an informal classroom, meeting or presenting space that's protected from the surrounding space.

## EXAMPLE CONFIGURATION

The Mote Sofa Systems offer the perfect space to break away from the office, host guests in an informal setting or offer an informal work space. In offices with space considerations, additional, power connected work stations can be installed at the back, making furniture work harder and smarter for demanding environments.

# Mote Storage

Mote storage has been designed to complement the full range of Mote seating. Featuring a contemporary silhouette, Mote storage comes in three heights that share a common design language, ideal for meeting rooms and collaborative environments.

## VERSION 1

Mote storage has been designed to complement the full range of Mote seating. Featuring a contemporary silhouette, Mote storage comes in three heights that share a common design language, ideal for meeting rooms and collaborative environments.

## VERSION 2

Low Board storage is ideal for positioning beneath a large screen; Sideboards and High boards are a beautiful accompaniment to any meeting room and all can effortlessly house a number of multimedia devices.

## Pods

Pods nestle and tessellate to maximize available space, allowing the creation of a community of environments and destinations.

### SOLO

Solo provides a solution for short term desk based environments, be it for individual focused work away from the general workstation environment or as a temporary location for a non desk based employee.

Solo incorporates a switchable task light, desktop power and vertical cable management. The increased height delivers both additional visual and acoustic privacy. The 1800 high Pods come with lights as standard.

### SOLO PLUS

Solo Plus builds upon the functionality of the Solo but with a larger footprint and wider work surface. Solo Plus incorporates a switchable task light, desktop power and vertical cable management.

The increased height delivers both additional visual and acoustic privacy.

### DUO

Most impromptu meetings within the office environment will tend to be within small groups, at workstations which disrupt colleagues. Formal meeting spaces tend to be for larger groups, so using these is inefficient.

Duo provides a location for ad-hoc, face to face meetings and its compact footprint allows it to be collocated within workstation environments. Duo incorporates a table top power solution and vertical cable management.

### QUAD

Providing a compact stand alone meeting solution for up to four people, its footprint easily allows the Quad to be positioned strategically. It can be placed amongst workspaces individually, in clusters as a meeting place or as a booth seating solution.

Quad incorporates bench seating along its sides and a stand alone table.

## Pods

Pods are ideal for either an individual within a desk based environment looking for a space to focus or for teams to gather for impromptu meetings.

### TEAM WORK

Team Work provides, as its name suggests, a structure for teams to work together. Its footprint allows for up to six people to be accommodated. Team Work does not include any internal furnishings but can encapsulate freestanding furniture solutions providing privacy to that setting.

This approach makes the Team Work Pod perhaps the most flexible within the range. As video conferencing and sharing of information on large format screens, by multiple users, becomes more commonplace in the office, Team Work is also available with a support panel upon which to mount a screen.

### TEAM MEETING

Creating informal environments for team meetings where groups of up to ten can meet to talk and share, for the morning briefing, the quick brainstorm or the afternoon coffee. The bench seating solution and small freestanding central table support a concept of quick discussion and resolution.

### TEAM RESOURCE

Within open plan office environments it is more common today for employees to share resources like printers, scanners and facsimile machines. Aside from the general ambient noise of an office it is generally accepted that it is these kind of devices whirring into life that provide much of the acoustic and visual distraction of colleagues utilising them. Team Resource provides a centralised location for these shared resources along with storage for consumables such as paper, cartridges and waste solutions including recycling stations all within the acoustic shadow of the Pod system.

## Pods

Looking at the changes we see happening in the workplace, the responses to the research we have conducted and client led specials we have developed in recent years has provided inspiration for the development of a new family of Pods.

### SOLO ABODE

A new simpler rectilinear shape that incorporates a larger 1400mm wide x 800mm deep work surface with full under-top cable management, the top incorporates a scallop to allow for a monitor arm and desk top power.

### SOLO ABODE+

The increased size incorporates a 1650mm wide x 800mm deep work surface. The entrance is sufficient to provide DDA (wheelchair). Available with a fixed desktop or height adjustable crank desk.

### DUO ABODE

The development of a new 'T' junction panel allows two Solo Abode's to be configured as one unit, saving space and cost.

### QUAD ABODE

To bring four Abodes together we have developed a new centre '+' panel. This allows the user to deploy four Abodes in a similar space to a four man bench, whilst the sharing of panels provides a significant cost benefit.

# Pods

This new family of Pods has been developed to respond to what people tell us they want, to facilitate how people want and need to work; to focus as individuals or in group spaces.

The enhanced work surface size allows fixed pc's to be used and complies with legislation for use as a primary workspace.

The ability to deploy multi-person configurations that share panels provides significant benefits both in terms of space utilisation but also the cost.

## ENCLAVES WINDMILL

To allow multiple Enclaves to be deployed in an open plan environment we offer two standard four person configurations. They offer significant benefits in terms of their space utilisation and per head cost.

## ENCLAVES 4 BACK TO BACK

The Back to Back variation of the Enclave Pods create individual private spaces for working without the need for additional infrastructure in open plan environments. The upholstered panelling can offer acoustic benefits as well softening the visual landscape of the space.

## TEAM SPACES

The new panel configurations allow us to create a double meeting space that optimizes the interior space available to accommodate a variety of furniture solutions. This Pod also works effectively as a space divider that can be deployed without impacting on any building M&E services.

## RESOURCE CORRALS

A solution for hiding away, the printer, coat racks, recycling storage, vending machine etc.

### POWERED BY PRIVACY

CellPod provides an excellent solution when creating privacy and collaboration spaces within work environments. They are designed as freestanding units and feature a structural framework with a demountable panel system so they are simple to install and reconfigure as needs change within an organisation.

In addition to the standard configurations the CellPod system can be designed and manufactured to your own specification providing unrivalled solutions for individuals to work in privacy and isolation through to comprehensive meeting room environments.

## CellPod

CellPod provides an excellent solution when creating privacy and collaboration spaces within work environments. They are designed as freestanding units and feature a structural framework with a demountable panel system, so they are simple to install and reconfigure as needs change within an organisation.

# Vee

With its simplistic, inviting form, complimented by full, sound absorbing upholstery, Vee is ideally suited for quick touchdowns or a place to re-charge. Winner of the IDA RED Award, designed by Q Design is a perfect solution that allows individuality and collaboration to happily co-exist.

## SOLO

Each configuration is designed with you and your space in mind. The flexibility of the design and the space available. The Solo offers a space to reflect and recharge, with the opportunity to easily share and collaborate, in a quiet, relaxed space.

## SOLO DIVIDE

A configuration that not only offers a private, yet collaborative space to work. The 'S' Style shape, with a mix of Left and Right handed single units, can also provide a natural acoustic barrier and separation across any open Office landscape.

## Talon Tables

Talon is a stunning collection of versatile laptop and occasional tables designed to accompany soft seating in lounge or breakout areas. The innovative delta shaped laptop table can be used alone or clustered together for ad-hoc collaborative working. High and low occasional tables in a variety of complementary shapes and finishes complete the range.

### TALON DUO

In today's demanding office environments, movable work spaces are key. The Talon Duo provides a large enough space, that nestles perfectly in to any setting, offering remote and moveable work stations, quickly and easily.

### TALON SOLO

The elegant and sophisticated Talon Solo, provides a quick, easy and beautiful solution to moveable work station solutions, not only that, the Talon lends itself perfectly to Reception, Welcome Spaces and Hospitality Settings perfectly.

## Revelation Tables

Senator's collection of Education Tables were designed with versatility in mind. The variety of shapes and sizes were created to support the different learning requirements found in educational and training environments.

### EXAMPLE CONFIGURATION

With such a wide scope of configurations available including crown theatre, trapezoidal, multiple clusters, plectrum and rectangular to name a few, there is something to fit every space.

## Revelation Tables

After looking at how people work, communicate and interact in learning environments, this table collection was designed with a unique range of top shapes and sizes to create dynamic spaces.

### EXAMPLE CONFIGURATION

The re-configurability encourages the simple transition between and creation of classroom, discussion and group work spaces. Tables can be specified with adjustable feet or castors for additional manoeuvrability.

## Hub

Designed to be a destination in open spaces, the unique curved structure of Hub creates a point of visual interest within the landscape. Naturally simplistic in its form, Hub is constructed of a three piece structure that fits together to create a singular fluid arch.

### EXAMPLE CONFIGURATION

Hub is a unique fully upholstered meeting pod. Available as a two seat, or as a four seat module, both come with integral LED down lighting.

### EXAMPLE CONFIGURATION

Lights are operated via an infrared switch for ease of use which is located in the roof. Complementary to any space, Hub can be upholstered in a wide range of fabrics and is available in one or a two tone colour finish.

## Locked

Locked is a range of personal storage lockers designed for modern ways of working. Door configurations are available from two doors up to eight doors and units. Each door is supplied with 170 degree exposed knuckle hinges for ease of access and are secured with a key lock, and name card holders are fitted as standard. Other lock and locker identification methods are available.

## Dine / Pinnacle

Dine is a range of standalone rectangular tables and benches available in a variety of sizes and finishes designed for dining, breakout or meeting areas.

### PANEL

Where traditional benches meet contemporary design. The Panel Bench offers a standalone rectangular benching system, perfectly created for dining, break out or meeting areas.

### MITRE

Compact and well-constructed, Mitre is perfect for Breakout, Dining, Meeting or Informal Areas where space is a consideration. It's neat design, adds the opportunity to store away the seats when the Bench isn't being used.

### DINE STEEL

The Dine Steel is a range of rectangular tables and bench systems that can be made bespoke to fit any environment. The exposed steel edge, gives the system a unique aesthetic and can be finished to compliment any surrounding.

### PINNACLE

The A-Frame, angular exposed Steel Frame work, offers a beautiful design feature with both function and form. Pinnacle offers a multi-functional space that can fit in any Office, Dining, Break Out or Meeting Space.

## Media Table

The AV Media Table has been developed to facilitate collaborative working environments using laptops, tablets and smart phones, with accessible power via a flip top unit in the desk panel. Available in two heights and a range of finish options.
