## Outdoor Dining Collection

The Alfresco dining furniture is back by popular demand; an outdoor, weather-durable version of our ever-versatile Dine Steel. These table and benches have a larger range of size options depending on what kind of space you have to offer.

With the expanding demand for outdoor furniture solutions, our Picnic all-in-one seated and dining sets are designed to have a stylish presence and a sturdy appearance, that makes this table look both modern and contemporary.

- Picnic has an extensive range of metal finishes to choose from
- Tops made from damage-resistant Solid Grade Laminate (SGL)
- Options of mild and muted, or brightly coloured SGL finishes
- Durable frames, built to withstand all types of British weather
- Stylish and functional without the need of gimmicks
- Optional floor fixing plates available to purchase
- Easy to maintain and clean

## Alfresco

Fully-welded 50mm box section stainless steel frame.

The seat and table top are made from damage-resistant 12mm thick Solid Grade Laminate (SGL). Easy to maintain, impact-resistant, and has antibacterial properties that can prevent the growth of mildew and mould makes this material one of the best for outdoor uses.

Sizes for Alfresco seats and tables range from 1000mm long up to 2400mm in increments of 200mm.

Options for floor fixing foot brackets can be requested upon purchase.

## Picnic

Using our extensive range of metal finishes (see our Metal Finish at the end of this presentation), the 50mm box section frame is powder coated in a colour of your choosing.

It is then fitted with an easy-to-clean, weather-durable Solid Grade Laminate (SGL) top. Machined grooves reveal the black resin-infused core of the SGL and help stop water from building up on the surface.

The table is 750mm wide as standard however the overall width including the two benches is 1820mm. Lengths start at 1800mm right up to 3000mm.

Options for floor fixing foot brackets can be requested upon purchase.
